Domestic Violence in Later Life Detecting and Preventing Homicide/Suicide: *Understanding Possibilities for Intervention*

Learning Objectives:

- Develop a better understanding of how intimate partner homicides and homicide-suicides involving couples aged 65 and older, differ from those involving younger couples;
- Identify the common risk factors in intimate partner homicides involving older couples;
- Identify those unique risk factors that may end in suicides of the perpetrators;
- Using Case Studies, examine the circumstances surrounding some of these deaths;
- Become familiar with recommendations generated to date by the Domestic Violence Death Review Committee, aimed at preventing future deaths;
- Learn about those resources available to service providers to help support older couples at potential risk.

Presenter: Dr. Myrna Dawson, PhD

Professor and Canada Research Chair in Public Policy in Criminal Justice, College of Social and Applied Human Sciences, University of Guelph

Director, Centre for the Study of Social and Legal Responses to Violence

Co-Director, Canadian Domestic Homicide Prevention Initiative
